

NATURAL-USE INFO

HISTORY:

This amazing A-Grade wax was founded in Barcelona (Spain) in 1997. It is already available in 20 countries worldwide, and the research teams are constantly developing new and innovating products to ensure that they maintain the highest standards.

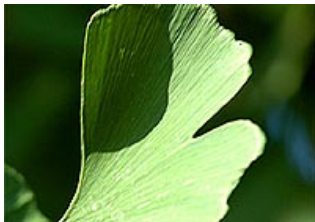

Natural-Use is definitely one of the market leaders with regards to the waxing industry. We at Planet Nails are very privileged to be the exclusive distributors of Natural-Use products for South Africa.

The way these products are formulated, ensure very smooth wax application, great adhesion to the hair, excellent elasticity and minimum residues to remain on the skin after the wax has been removed.

Natural-Use is also proud to say that all their main ingredients are completely natural (they mainly use natural pine resins) – decreasing risk of irritation and allergic reactions.

PRODUCT KNOWLEDGE:

One of the main ingredients that can be found in most products is: GINKGO BILOBA

Parts used: The leaves and seeds are used.

Properties

Ginkgo Biloba is a bittersweet, astringent herb that dilates (enlarges) the blood vessels and controls allergic responses. The leaves stimulate the circulation and the seeds have anti-fungal and antibacterial effects.

This ingredient can be found in the following Natural-Use products:

- Paraffin treatments
- Collagen and Elastin Cream
- Moisturizer
- Stimulating Skin Tonic

Warm Wax (Tins & Cartridges)

We stock these warm waxes (also know as “cold” or “strip” wax). Available in 110g cartridges and 800g tins.

1. Natural Honey

This offers the classic natural wax without any colour or fragrance.

Benefits of honey:

- Anti fungal
- Nourishing
- Soothes tissues
- Anti-bacterial

2. Pink Rose with Primrose Oil

This pink wax has highly soothing properties and softeners with makes it ideal for extremely sensitive skins, especially those with a tendency to redden.

Benefits of primrose oil:

- Excellent Anti-Ageing properties
- Anti-inflammatory

3. Chlorophyll with Aloe Vera

A Green wax recognized for its strong emollient and moisturizing action.

Benefits of Aloe Vera:

- Wonderful healing properties
- Calming
- Good for sensitive skins

4. Blue Azulene with Violet Extract

This is a blue wax known for its anti-inflammatory properties.

Benefits of Azulene and Violet Extract

- Azulene has dramatic anti-inflammatory effects
- It is very calming
- Anti-septic

5. White with French Jasmine extract

This is a white wax with a delicate French Jasmine fragrance. Designed to provide a perfect and moisturizing effect and to convert the hair removal treatment into a more relaxing episode.

Benefits of Jasmine

- Excellent for dry and sensitive skins
- Anti-septic

6. Mauve with blueberry extract and Vitamin E (For Teens)

This is a gentle wax with a unique sweet fragrance. It is ideal for teens or girls to experience their first hair removal treatment. It also contains vitamin E which helps improve the general aspect of the skin and stimulate blood circulation. It provides an excellent combination for teenager skin and won't stimulate the sebaceous (oil) gland

7. Chocolate with pure Cocoa Butter extract

Cocoa butter is known for its soothing and hydrating properties.

Benefits of Cocoa Butter

- Inhibits the production of inflammatory cells
- Excellent for stretch marks

8. Grey with Tea Tree Extracts (For Men)

This wax was specially designed for men's hair removal and to provide a soft hairless skin.

- Very good for oily skins (has a drying effect)
- Anti bacterial
- Healing & Calming

9. Special Gold with Lemon Essential Oil

This wax is based on a balanced sterificated resin mixture. The presence of Mica & Titanium Dioxide confers special characteristics that make it optimal for professional hair removal. It contains Lemon Essential Oil which is rich in Vitamin C and Carotene.

Benefits of Lemon:

- Anti bacterial
- Healing & Calming

Hot Wax (Pearls & Cakes)

The Pearls are available in Azulene, Pink Rose and Green Ginkgo Biloba. The cakes are also available in White. They all have the same excellent elasticity and quality as the rest of the waxing products.

All the above products are wonderful for sensitive and delicate skins.

Lotions and Treatments

1. Pre-Wax Gel with Calendula & Rosemary – 500ml

- This is a non oily product, used to clean the skin of any cosmetics or dirt to ensure proper wax adhesion.
- Calendula is excellent for to treat any skin disorder (especially burn wounds)
- Good for dry skin

2. Post-Wax Oil with Aloe Vera – 500ml

- Removes any left over wax or sticky sensation. Leaves the skin clean, fresh and moisturized.
- Wonderful healing properties
- Calming
- Good for sensitive skins

3. Body Milk with Peach and Wheat Germ Oil – 500ml

- Post-Wax application – A gentle way to smooth skin after hair removal treatments.
- Very good for dry/mature skins.

4. SOS Epil for Ingrown Hair

100ml

150ml + Spray

- This is an excellent post-depilatory product used for preventing subcutaneous hair growth. It includes rich emollient extracts which nourish & hydrate the skin. Preservative & perfume free.
- It helps to prevent inflammation and ingrown hairs. It will also inhibit the re-growth of the hair to some extent. Please only apply 24 Hours after the wax and do not use if allergic to aspirin.

5. Post-Wax Wipes with Azulene Oil

Individually packaged.

- Azulene has dramatic anti-inflammatory effects
- It is very calming
- Anti-septic

PARAFFIN PRODUCTS

1. Neutral Paraffin 1Kg (with Cocoa Butter)

2. Rose Paraffin 1Kg (with Primula Rose Extract)

3. Green Paraffin 1Kg (with Ginkgo Biloba Extract)

The above are used in conjunction with a Paraffin Wax Warmer to melt the paraffin.

The heat of the Paraffin will cause the pores to dilate (enlarge), which improves the absorption of any moisturising cream applied before the dipping procedure.

4. Stimulating Skin Tonic with Ginkgo Biloba Extract – 500ml

Contains extracts of Ginkgo Biloba. To be applied before the Paraffin Dipping Procedure to stimulate the skin and the blood circulation – this will ensure that all nutrients are brought to the surface of the skin to ensure a healthy glow and to improve absorption of the product. Contains natural Anti-Ageing ingredients and is ideal for dry & lifeless skin.

5. **Collagen and Elastin Cream with Ginkgo Biloba Extract - 250ml**

This is an excellent anti ageing treatment that can be applied before the paraffin procedure (to increase absorption), or after a facial wax to nourish the skin and to prevent ageing. This could be done as a specialized treatment.

6. **Moisturizing Cream with Ginkgo Biloba Extract - 500ml**

This will act as a moisturising agent to massage the feet/hands with before the paraffin procedure. This product is enriched with Ginkgo Biloba extract formulated to give maximum hydration to the skin and to prevent premature aging. It smoothes, moisturizes and revitalizes the skin. Contains natural substances also present in fruits and vegetables, acting like anti-oxidants.

LISA PREMIUM WAXING STRIPS

These top quality waxing strips are woven together in such a way that it won't tear when performing a wax removal.
